

LOCAL NEWS.

BAD PAVEMENTS.—It was mentioned in yesterday's Gazette, that the Mayor having allowed the owners of city property, in front of whose premises the side walks require repairs, all reasonable time in which to have those repairs made, has determined to instruct the Superintendent of Police to have the necessary work done without any further delay, and will see that the expense of the same will be paid by the proper parties. Good side walks are essential requisites of large communities of people, and why Alexandria should be deficient in that particular, with the numerous brick yards in the immediate vicinity of the city, no one can readily imagine; but that such a deficiency does exist, and that to a woeful extent, no one who has lately walked its streets will deny. Pedestrians cannot even use King street in wet weather, or after a rain, without having their feet splashed from pools of water concealed under sunken bricks, and to walk any of the streets after dark without stumbling about like a drunken man, and running the risk of sprained ankles, requires better eyesight than most people possess.

ALEXANDRIA AND FREDERICKSBURG RAILROAD.—As will be seen by an advertisement in another column, proposals for building the Alexandria and Fredericksburg Railroad from this city to a point on the Richmond, Fredericksburg and Potomac Railroad, about thirty miles down the river, will be received at the Company's office in this city until the 31st instant. The route of the proposed road will be, commencing at West Grove, the farm of Maj. Geo. Johnston, through Banerff's, Stair's, the Gibb's place, Smith's, Port's, McGinnis's, Burkman's, Trux's, Gillingham's, Landis's, Chichester's, Riley's, Harrover's, Nevitt's, Stennell's, Davis', Wilson's, Reator's, Lee's, across Belmont bay, west of Colchester, through Troth's, Mount Pleasant, Curt's, Marsh Hall, across Neaboo Creek, and by Freestone and Morgan Points, Cockpit, Possum Nose, Uterbacks, Shipping Point, near Evansport, by Chapawampsic, Mayville, and through Waller's to the objective point.

O. A. & M. R. R.—The late reported injuries to the O. A. & M. R. R. have been, as already announced in the Gazette, greatly exaggerated. Mr. Vanderkift, the Superintendent, who has just inspected the whole line of the road, telegraphs from Lynnhurst to President Barbour this morning that the bridges over Rockfish and Tye rivers will be passable by the middle of next week. All the remaining portion of the road, except the James river bridge at Lynnhurst, is in good order, and measures have already been taken for a temporary crossing at that point.

OVERBOARD.—Mr. S. B. Gardner, of Front Royal, while on his way from the Mansion House to the wharf of the Aquia Creek mail boat, at half past three o'clock this morning, walked into the dock at the foot of Prince street, but, fortunately, the tide was low and he escaped with a thorough soaking, and the loss of his hat and umbrella, which, however, were afterwards found. He attempted to go in a direct line from the corner of the building known as McVeigh's warehouse to the end of the Prince street wharf, and of course walked directly into the water.

APPOINTMENT.—The appointment to the Washington University of Baltimore, which was placed by the Board of Trustees, at the disposal of the Hon. Lewis McKenzie, has been conferred, by that gentleman, upon Luther D. Harrison, Jr., a member of the Senior Class of St. John's Academy in this city, who has accordingly entered the University.

COLORED EXCURSION TO RICHMOND.—The colored Odd Fellows of this city, accompanied by some from Washington, and having with them a brass band, left here yesterday evening on an excursion train, over the O. A. & M. R. R. for Richmond.

SPECIAL TRIP.—The steamer City of Alexandria will make an extra special trip to Washington to-night for the accommodation of those who may desire to visit the places of amusement now open in that city. See notice in another column.

GARRISON AT FORT WASHINGTON.—Company A, 4th U. S. Artillery, commanded by Gen. Evan Thomas, one of the two companies lately stationed at Fort Washington, has been ordered to Fortress Monroe.

DEAD.—Captain William Kenner, a native and an old resident of this city, died of cancer of the stomach, at his residence, lower end of Prince street, last night.

Local Briefs.

The Potomac Fruit Growers' Association held its first monthly meeting in Washington yesterday, when an interesting discussion took place on the propriety of giving reliable and known names. Mr. Gillingham referred to the Edwards early apple as the finest and most profitable early market apple known.

Capt. Eli Petty's steam oyster establishment is now in full operation. The oysters are fine, and the accommodations excellent.

POLICE REPORT.—Though the police have been on the look out, nothing has been seen or heard of the man who is accused of relieving his friend of \$300, all the money he had, night before last.

MAYOR'S OFFICE.—George Carroll, on complaint of Martha Butler, both colored, for disorderly conduct, was dismissed with an admonition, as both parties were to blame, but they were both afterwards rearrested for disorderly conduct, and both fined and discharged.

A woman charged with extorting money by threats was held for a further examination.

NIGHT REPORT.—Night cloudy with the moon shining at intervals. There were colored balls in progress at Fishward, Newtown, and upper end of King street, but they were all conducted very quietly. There were no disturbances in any quarter of the city and no arrests, and the streets preserved their usual quietness.

SUPERIOR OPTICIAN.—Dr. Bernhardt appears to meet with the most flattering success in this city in the introduction of his improved Spectacle and Eye Glasses, and his mode of adjusting them. Many prominent persons hereabouts have consulted him, and give the highest testimony of his skill. Office at the Mansion House. The Doctor's rooms are crowded daily with persons from this city and country to consult him in regard to their eyes and order his superior glasses.

FOREIGN NEWS.

TOROS, Oct. 6.—The battle which occurred near Chateau Gaillard on the 4th inst., has been productive of important results. The Prussians were defeated, and the position taken by the French was one that necessitated the evacuation of Pithiviers by the enemy.

The Prussians abandoned that point in such haste that many cattle and a large amount of forage etc. were left behind, all of which fell into the hands of the French.

LONDON, Oct. 6.—Late advices from Paris state that there is much plundering there. All the bridges on the railroads and highways to the west of Paris have been mined, and are to be blown up, as the Prussians advance.

Beauvais, forty-one miles northwest of Paris, has been made a great viticultural centre by the Germans.

The Prussian preparations for the bombardment of Paris are nearly complete.

The presence of General Bourbaki in Europe is denied.

HAMBURG, Oct. 6.—The steamers of the Hamburg-American line are being used for the detention of French prisoners.

LONDON, Oct. 6.—The French iron clad steamer Regard Armad, is cruising in the channel near Fear Haven.

A battalion of the Garde Mobile, raised in the Department of Aisne and commanded by Duke Fitzjames, is mentioned as having distinguished itself by its steadiness and gallantry before Soissons.

It is denied that the Strasbourg Cathedral escaped serious damage by the late bombardment.

Temperance.

ST. LOUIS, Oct. 6.—The State Temperance Convention assembled yesterday for the purpose of organizing a State temperance society. Horace Greeley urged the organization of such societies throughout the State and the laying of scientific facts before the people. He did not believe in prohibitory laws, but the people should be taught that alcohol, like opium, is poison, and should be shunned.

An attempt was made in the Convention to organize a political movement—only temperance men to be voted for—but it was defeated.

Free Wharfage.

CINCINNATI, Oct. 6.—A large meeting was held in this city last evening, in favor of free wharfage. A number of the delegates to the Southern Commercial Convention were present and participated in the deliberations. It was a spirited and interesting meeting, and resulted in the unanimous adoption of resolutions in favor of absolutely free wharfage.

Hoax.

ST. LOUIS, Oct. 6.—The report received on Tuesday night that a coal mine at Caseyville, Illinois, had caved in and buried thirty-five miners, was a harmless hoax.

CHARLES WHITTLESEY, U. S. COMMISSIONER, AND ATTORNEY AND COUNSELLOR IN BANKRUPTCY.

Congress having just amended the Bankruptcy law so that nearly all parties can be discharged from their debts unobscured by the fifty per cent clause, so called, another opportunity is offered to secure the benefits of this most effective and permanent measure of relief. The above-named will make bankrupt business a specialty; will procure discharges on the most moderate terms, and transact all business in that line at prices which cannot fail to be satisfactory. He will, in addition, endeavor to visit the different counties on court days, and thus save parties the trouble and expense of several trips to Alexandria in beginning and proceeding with their cases. Discharges can be obtained here before Register Hillis promptly as in Richmond or elsewhere, and at much less expense to parties. It may be added that the Bankruptcy act, in connection with the Homestead exemption, which it is now believed will be secured to the bankrupt under the bankruptcy law, is the only relief now offered to parties struggling in the hopeless bondage of debt, and is desired personally or by letter at No. 12 south Royal street, Alexandria. SPECIAL NOTICES.

BEAR IN MIND.

When disease has undermined the health, and the physical system has become prostrated, a stimulant that will not only strengthen, but remove the cause, should be immediately resorted to. Mentis distress is also a fruitful source of the breaking down of the constitution, and the ravages of this enemy to health are truly alarming. For all such maladies Hostetter's Stomach Bitters have been found unsurpassed. By acting directly upon the digestive organs, they remove the heavy, disagreeable feeling after eating, so often complained of by persons of a delicate temperament. As soon as digestion is restored, the patient finds his strength increasing, and his general health improved.

Thousands of persons testify that it may be relied on in all cases of weakness or nervous debility attendant upon sedentary habits. The general effect of Bitters is so disagreeable to the taste that it is objectionable to many. Produced, containing no fluid oil, or any other deleterious element. The most careful and skillful chemists have analyzed the Bitters and pronounce them harmless. This is scientific testimony; but the testimony of the hundreds of thousands who have experienced the preventive and curative effects of the GREAT VEGETABLE TONIC and ALTERNATIVE of modern times is still more conclusive. In Fever and Ague, Dyspepsia, Biliousness, Nervous Complaints, Chronic Complaints, and general debility it is as nearly infallible as anything in this fallible world can be. oct 3-octw

BARK, HERBS AND ROOTS.

The base of Speer's "Standard Wine Bitters" is his celebrated Wine, which contains the purest Peruvian Bark, Chamomile Flowers, Snake Root, Ginger, &c. It is pleasant to the taste, and far superior to anything in the form of tonic now before the public. They are simply his own Wine, made bitter by the infusion of herbs and roots, above enumerated. oct 3-1w

ADVISE IN SEASON.

CLEAR AND HARMLESS AS WATER. NATTAN'S CRYSTAL DISCOVERY FOR THE HAIR.

A Perfect Hair Preparation, in One Bottle, as Easily Applied as Water, for Restoring to Gray Hair its Original Color and Youthful Appearance, to Eradicate and Prevent Dandruff, to Promote the Growth of the Hair, and Stop its Falling.

It is perfectly harmless and entirely free from any poisonous substance, and will therefore take the place of all the dirty and unpleasant preparations now in use. It is warranted to contain no Lead, Nitrate of Silver or Sulphur, consequently it is perfectly free from all the objections so justly urged against the muddy and sulphurous compounds. In everything in which the articles now in use are objectionable the Crystal Discovery is perfect.

Clear and clean as water, it does not soil the clothes or scalp, is as readily removed as water, and makes one of the best dressings for the hair in use. It restores the color of the hair more perfectly and uniformly than any other preparation, and always does so in from three to ten days. Virtually feeding the roots of the hair with all the nourishing qualities necessary to its growth and healthy condition, it restores the decayed, and induces a new growth of the hair more positively than anything else. The application of this wonderful discovery also produces a pleasant and cooling effect on the scalp, and gives harsh, wiry and brash hair a glossy and elegant appearance.

Special attention is called to the fact that it will positively give entire satisfaction in every case. Our aim is not to induce you to buy a single bottle, but to have you use it constantly.

For sale by druggists and fancy dealers generally. Liberal discounts to dealers. ARTHUR NATTAN, Inventor and Proprietor, Washington, D. C.

To whom all orders must be addressed, The following is inserted as a specimen of the many recommendations sent us: Washington, August 15, 1870.

Mr. Arthur Nattan—Dear Sir: Some time since I bought a bottle of Crystal Discovery on your own recommendation, and after a thorough trial am glad to say it has accomplished more than you claimed. It is as clear and easy of application as water, resembling none of the dirty preparations in use. My hair, which was quite gray, has assumed its natural color after a few applications, and I cheerfully recommend its use to all needing anything of the kind, as also the cheapest article ever offered. Very respectfully, oct 5 JAMES HALL, 20th and E sts.
